Abstracts, 124, 383, 634, 768, 915, 1042, 1163, 1390
  American Geriatrics Society and American Federation for Aging Research, 1999 meeting, S1
Acquired immunodeficiency syndrome, characteristics in older people, letter, 764
Activities of daily living (ADL)
  caregiver's report *vs.* direct report, dementia patients, 196
  chronic disability in, incidence and predictors in, 1082
  companion animals influence on, 323
  functional decline, time "Up & Go" test and Manual Button Score as predictors of, letter, 497
  independence in, after hospitalization, risk factors, 360
  in-home geriatric assessment role in prevention of functional decline, 389
  instrumental, functional impairment as early sign of dementia, 456
  life expectancy estimates, 1326
  nonmalignant pain management and correlates in nursing home and, 936
Acupuncture, risks associated with, 737
Advance care directives, physician attitudes toward, racial disparity, 579
Adverse drug reactions, alternative medicines, 737
Advertising, risperdal advertising in *JAGS* in, letter, 377
Aerobic capacity, silent myocardial ischemia and, editorial, 1026
Age, biological, vascular compliance as measure of, 657
Ageism, physical function influence and, age-related gait changes and, 1346
Aggression, identification of patterns, long-term care facilities, 830
Aging
  aviator performance and, 819
  body mass index and mortality, Italian longitudinal study on aging, letter, 1035
  cardiovascular, research in, 613
  estimating extent of cognitive decline, old old patients, 1283
  fall-related head injuries and, rapid increase with age, 1451
  fecal and urinary incontinence prevalence, community-based study, 837
  illness and disability related to, Prisoner of War experience effects of acceleration of, 60
  mortality risk assessment, 1-year postdischarge from geriatrics evaluation and management unit, 860
  slowing by calorie restriction, primates, 896
Agitation
  assessment, in Alzheimer's disease, 1354
  in nursing homes, physical activity and environmental intervention effects on, 784
AIDS. *see* Acquired immunodeficiency syndrome
Albumin, levels, predictor of mortality and functional decline effects, 402
Alcohol consumption
  coronary heart disease prevalence and, 396
  functional disability and, cognitively impaired adults, 854
  habits in older persons, 412
Allopurinol, long-term use, cataract risks and, 739
Alpha-1-globulin, depression association with, 6
Alternative medicine, risks associated with, 737
Alzheimer's disease
  age effects on pupil dilation in, letter
  agitation assessment in, 1354
  blood test for diagnosis, 96
  clinico-neuropathological correlation, community-based case series, 564
  cloning for therapeutic research in, 369
  dementia and, costs in managed-Medicare, 1065
  donepezil treatment, economic evaluation in Canada, 570
  equilibrium and limb coordination in, 463
  firearm presence in households of patients with, 1183
  medical comorbidity in, 487
  Medicare expenditures in, letter, 1276
  Minimum Data Set, validity and responsiveness of, 1000
  misclassification and selection bias, Medicare claims records and, 215
  physician and acute care service use in, population-based comparison study, 864
  postoperative delirium, donepezil use, letter, 378
  prevalence and risks in Japanese population, 189
  pupil dilation, age effects on, letter, 257
  Simulated Presence efficacy for well-being, nursing home residents, 446
  syhmptom severity in blacks and whites, 482
Analgesic medications, falls and, review and meta-analysis, 40
Angiotensin-converting enzyme (ACE) inhibitors
  falls and, review and meta-analysis, 40
  underutilization
    elderly pacemaker population, editorial, 252
    letter, 1385
  use in heart failure and renal dysfunction, 302
Antiarrhythmics, falls and, review and meta-analysis, 40
Anticoagulation, underuse in older patients with atrial fibrillation, letter, 1034
Antidementia drugs, ethical problems in use of, letter, 913
Antidepressant drugs, prevalence of use, population-based observations, 1350
Antidepressant medications, falls and, review and meta-analysis, 30
Antihypertensive agents
  blood pressure patterns in nursing homes and, 285
  falls and, review and meta-analysis, 40
  prevalence of use in hypertension, 597
Anti-inflammatory drugs, nonsteroidal
  renal effects in older people, epidemiologic study, 507
  renal function and, editorial, 626
APACHE II, long-term functional outcome after intensive care, 18
APOE 4, hip fracture risks and, community-based sample, 1342
L-Arginine, intermittent claudication and, 370
Aromatherapy, risks associated with, 737
Arterial compliance, exercise time and lower blood pressure and, 653
Arteritis
  giant cell, as presenting sign of bilateral internuclear ophthalmoplegia, 734
  temporal, clinical approach to, 1364
Arthritis, rheumatoid, medication adherence, 172
Aspirin therapy
  acute myocardial infarction and, outcome in elderly patients, 291
  atrial fibrillation management and, 740
  nursing home patients with abnormal electrocardiogram, letter, 119
  thromboembolic stroke incidence in atrial fibrillation and, 366
Assessment
  geriatric evaluation and management unit, admission characteristics as predictor of return to, 1100
  geriatrics unit for, mortality risks 1-year postdischarge, 860
  in-home geriatric, effectiveness in prevention of functional decline, 389
  nurse-administered in-home, hypoalbuminemia, 1244
  outpatient geriatric, editorial, 371
  outpatient geriatrics, adherence intervention and, 269
Atrial fibrillation
  age-related differences in care, 145
  management of, 740
  thromboembolic stroke incidence in, warfarin *vs.* aspirin treatment effects, 366
  underuse of anticoagulation in older patients with, letter, 1034
Atrial natriuretic peptide
  congestive heart failure and, 407
  levels, in nocturia and nursing home patients with nighttime incontinence, 1439
Aviator performance, age relation to, 819

B

Balance. *See also* Postural control
  deficits, home environmental hazard prevalence, 88
  in mild cognitive impairment and Alzheimer's disease, 463
  modifications to visual anchor and, effects on postural control, 235
  shoe collar height and sole hardness effects on, postmenopausal women, 681
Bedrails
  benefits of, editorial, 627

fall in the hospital and, 529
Behavior
agitated, assessment, in Alzheimer's disease, 1354
disruptive, patterns of, long-term care facilities, 830
disruptive vocalizers, in skilled nursing facilities, 439

Behavioral disorder, recurrent, refractory hypoglycemia presenting as, letter, 380
Behavioral rehabilitation, morning care routines in nursing homes, dementia patients, 1049
Behavioral therapy, urinary incontinence and, homebound older adults, 309
Benzodiazepine, recent hospitalization relation to outpatient prescribing of, 184
Beta globulin, depression association with, 6
Beta-blockers
acute myocardial infarction and, outcome in elderly patients, 291
falls and, review and meta-analysis, 40
Blood pressure
aerobic exercise and T'ai Chi effects on, 277
cerebral atrophy effects on reducing, 96
changes, cardiovascular disease risk factors and, older Mexican-Americans, 804
declining, as predictor of poor health, 738
low, relation to incidence of dementia, 723
lower, association with systemic arterial compliance and exercise time, 653
magnesium supplementation effects on, 96
measuring, hypertension treatment and, editorial, 373
mortality and, editorial, 1477
patterns in nursing homes, diagnosis and hypertension treatment implications, 285
potassium supplementation effects on, 370
reducing, platelet hyperactivity control in hypertension and, 943
resting, strength training effects on normalization of, 1215
systolic
home, association with 4-year mortality, 1415
reflection of pressure wave contribution to, letter, 499
variability, postural changes in, 1332
Blood testing, Alzheimer's disease diagnosis and, 96
Body composition, physical performance and, 1403
Body mass index, mortality and
community-based study, 1072

Bone mineral density
cognitive decline and, women, 1176
urinary cortisol excretion and, 799
Book reviews, 263, 500, 1277
Bowel surgery, hospitalization patterns, 553
Brain, age-related changes in, motor function and, 330
Burn, bovine basic fibroblast growth factor effects on healing, 370

C

Calcidiol, muscular function and, 220
Calcitriol, muscular function and, 220
Calcium channel blockers
falls and, review and meta-analysis, 40
long-acting *vs.* short-acting, acute myocardial infarction and, 512
Calorie restriction, slowing aging and extending lifespan effects, primates, 896
Cancer, prevalence in oldest old, letter, 495
Cardiac medications
falls and, review and meta-analysis, 40
underutilization in pacemaker population, editorial, 252
use in older patients, age-related differences in care of heart disease and, 145
Cardiac rehabilitation, older coronary patients, 98
Cardiovascular aging, research in, 613
Cardiovascular disease
blood pressure changes as risk factors for, older Mexican-Americans, 804
sleep apnea association with, Japanese-American men, 524
Cardiovascular procedures, hospitalization patterns, 553
Caregiver
ADL reports *vs.* direct report of ADLs, dementia patients, 196
competence assessment, dementia patients, letter, 256
Case management, nurse, of frail elderly, controlled trial, 1118
Cataracts, allopurinol use and risk of, 739
Catheters, urinary, type preferences in men and their nurses, 1453
Centenarians
cancer prevalence in, letter, 495
circadian heart rate rhythms, Japanese, 1094
plasma lipid peroxidation and vitamin C status, letter, 1038
thyroid disease prevalence in, 1238
Central processing speed, Blessed Test for determination, 1359
Cerebral atrophy, as cause of low blood pressure, 96
Cerebral infarction, giant cell arteritis and, 734
Cholesterol, levels, predictor of mortality and functional decline effects, 402
Chronic care clinics
effectiveness of, editorial, 908
evaluation and trial of, 775
Chronic illness
interleukin-6 levels and, functional disability, 639
nursing home ineffective management of, editorial, 250
subsyndromal depression and, 647
Circadian rhythms, Japanese centenarians, 1094
Circumcision, hygiene and, elderly patients, letter, 1155
Claudication, L-arginine infusion effects, 370
Clinico-neuropathological correlative study, Alzheimer's disease, community-based case series, 564
Cloning, Alzheimer's and Parkinson's disease, therapeutic research and, 369
Cognitive functioning/status
endogenous hormone levels as predictor of, women, 1289
estrogen
effects on enhancement of, women, 1171
women, editorial, 1267
gender effects on age-related decline of, 159
low blood pressure relation to incidence of dementia and, 723
medication adherence in rheumatoid arthritis and, 172
restraint use, predictors of continued use after reduction efforts, nursing homes, 342
5-year mortality predictors and, 1249
Cognitive impairment/decline
age-associated, missing data in epidemiological studies of, editorial, 1380
alcohol use and functional disability in, 854
bone mineral density and, women, 1176
equilibrium and limb coordination in, 463
estimating extent of, old old patients, 1283
estrogen replacement therapy and, in women, 518
medication management capacity and, 592
nondemented older people, cross-sectional *vs.* longitudinal estimates, 559
orthostatic hypotension and, 600
pharmacologic treatment of hypersexuality and paraphilias and, nursing home residents, 231
sleep apnea association with, Japanese-American men, 524
smoking effects on risks, letter, 1159
Communication
between nurses and physicians, in skilled nursing facility, effects on care, 71
physician-patient, life-sustaining treatment in nursing home residents and, 82
Community-based care, site of death determinants and, 25
Comorbidity
heart failure in older people, epidemiologic study, 664
medical, in dementia patients, 487
Companion animals, influence on physical and psychological health, 323
Competency, in dementia, letter, 377
Computed tomography, dementia assessment and, letter, 762
Congestive heart failure
ACE inhibitors use in, 302
atrial natriuretic peptide levels and, 407
ileus as clinical sign of, letter, 258
Valsalva's maneuver for detection of recurrent, in furosemide withdrawal, letter, 1384
Coronary artery disease
